

Adding value to business

## **Company announcement 5/2017**

### **AX IV EG Holding III ApS**

#### **Involvement of subsupplier for the Local Authorities' Benefits System, KY**

EG has been delayed in delivering the Local Authorities' Benefits System, and EG has assessed that the delivery will be optimally ensured by combining a subsupplier's standard application and EG's expertise within the organisational implementation.

Consequently, EG's interim financial statements as of 30 June 2017 will be affected by a reversal of work in progress, penalties to KOMBIT and provisions to cover costs for the remainder of the contract term. This will be shown as a separate item in the interim announcement.
