

Adding value to business

Company announcement 9/2015

AX IV EG Holding III ApS

Refinance Silkeborg Data

EG and Axcel thank investors for their strong interest in the roadshow and a potential tap issue to refinance the indebtedness of Silkeborg Data. After a careful evaluation of various funding sources, EG have decided to conclude the refinancing through an unsecured bank loan, provided by a bank not involved in the roadshow, which provides EG with a superior flexibility and funding cost. As such, the company will not be accessing the capital markets at this time.
